DETAILED ACTION

Status of Application

Claims 2-7 are pending and presented for examination on the merits, as claims 1, 8, 17, 24 have previously been cancelled and claims 9-16, 18-23, and 25-32 are cancelled as per being drawn to the non-elected inventions, non-elected without traverse, in preparation for allowance (see sections below).

EXAMINER'S AMENDMENT

1. This application is in condition for allowance except for the presence of claims 9-16, 18-23, and 25-32, directed to the Group II, III, and IV inventions, non-elected without traverse. Accordingly, claims 9-16, 18-23, and 25-32 have been cancelled.

REASONS FOR ALLOWANCE

2. Claims 2-7 are allowed.

3. The following is an examiner's statement of reasons for allowance: The current method appears novel in view of the prior art of record, due to the method being specifically drawn to priming a concrete pump line with a composition comprising urea in an amount of about 50-98 wt. % of the total composition. This requirement with regards to urea has not been shown in the art, and thus, this limitation in addition to the specificity of the rest of the method steps make current independent claim 2 allowable. Furthermore, dependent claims 3-7 are allowed by virtue of their dependency on claim 2. The closest prior art of record is US Patent No. 5,997,633 by Montgomery, which the applicant has amended the current claim set around such that the reference is no longer applicable, given its lack of disclosing the urea limitation (see original claim 1).

Art Unit: 1793

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
